1. [] Security, advised us of an inquiry he has received from NASA Security concerning a question they received from Senator Prescott Bush with respect to a NEW YORK MIRROR article referring to a Cuban scientist and allegations in the article that Soviet technicians in Cuba were capable of influencing U.S. space flights. 2. [] Talked with [] CI Staff, concerning the inquiry we had received from Don Appell, of the House Committee on Un-American Activities staff, with respect to [] and the publications CROSS-CURRENTS and SOVIET BOOKLETS. [] said that since this was an open propaganda effort on the part of the Soviets, it is not closely followed by his people. He is making several other checks and will be in touch with us. However, he suggested that HCUA might do better to contact the FBI and USIA.
